Arnetta Craft

From Nothing to Something for a Better Earth

2024

LAPORAN KEBERLANJUTAN

SUSTAINABILITY REPORT

From Nothing to Something for a Better Earth

Bagi banyak orang, minyak jelantah, kertas bekas, kain perca, atau sampah organik hanyalah sisa yang tak lagi bernilai. Namun bagi Arnetta Craft, semua itu adalah awal dari sebuah peluang. Dari bahan-bahan sederhana yang kerap dipandang sebelah mata, Arnetta Craft menghidupkannya kembali menjadi produk ramah lingkungan yang tidak hanya indah dan bermanfaat, tetapi juga membawa kehidupan baru bagi bumi dan manusia.

Semangat inilah yang kami wujudkan dalam tema “From Nothing to Something for a Better Earth”. Melalui tangan-tangan kreatif sahabat disabilitas dan komunitas sekitar, limbah yang tadinya berpotensi mencemari lingkungan berubah menjadi sabun, lilin, kertas daur ulang, dan karya kerajinan yang memberi dampak nyata.

Bagi kami, keberlanjutan bukan hanya tentang menjaga lingkungan. Lebih dari itu, keberlanjutan berarti membuka akses ekonomi bagi komunitas sekitar, menghadirkan ruang pemberdayaan yang inklusif, serta memperkuat rasa percaya diri sahabat disabilitas yang terlibat aktif dalam proses produksi.

Dengan langkah kecil dalam mendaur ulang, berinovasi, dan berkolaborasi, Arnetta Craft percaya bahwa perubahan besar dapat tercipta. Dari sesuatu yang dianggap “tidak bernilai”, kami menghadirkannya kembali menjadi karya yang memberi manfaat luas, demi bumi yang lebih baik, masyarakat yang lebih sejahtera, dan generasi mendatang yang lebih berdaya.

For many people, used cooking oil, wastepaper, fabric scraps, or organic waste are merely leftovers with no value. However, for Arnetta Craft, these materials mark the beginning of an opportunity. From simple resources often overlooked, Arnetta Craft breathes new life into them—transforming waste into eco-friendly products that are not only beautiful and functional but also bring new meaning to life for both the planet and its people.

This spirit is embodied in our theme, “From Nothing to Something for a Better Earth.” Through the creative hands of persons with disabilities and the surrounding community, waste that once had the potential to pollute the environment is transformed into soaps, candles, recycled paper, and handcrafted artworks that create real, positive impact.

For us, sustainability is not only about protecting the environment. More importantly, it is about expanding economic opportunities for local communities, creating inclusive empowerment spaces, and strengthening the confidence of persons with disabilities who actively participate in the production process.

Through small steps in recycling, innovation, and collaboration, Arnetta Craft believes that meaningful change can happen. From what was once considered “worthless,” we recreate valuable products that benefit many—working towards a better planet, a more prosperous society, and an empowered future generation.

Ikhtisar Kinerja Keberlanjutan | Sustainability Performance Overview

Aspek Ekonomi | Economy Aspect
[POJK B.1, F.2}

Uraian Description	Satuan Unit	2024	2023	2022
Pendapatan Revenue	Juta Million	350	225	115
Biaya Bahan Baku Raw Material Costs		105	67,5	34,5
Laba Bersih Net Profit		120	69,8	28,75
Biaya Operasional Operational Cost		230	155,25	86,25
Persentase Laba Bersih Net Profit Percentage	%	34%	31%	25%

Aspek Lingkungan | Environmental Aspects
[POJK B.2]

Efisiensi Energi | Energy Efficiency

- Menggunakan kompor gas hemat energi serta mengurangi konsumsi listrik dalam proses produksi
- Memanfaatkan cahaya alami di workshop untuk mengurangi pemakaian lampu listrik

- Using energy-efficient gas stoves and reducing electricity consumption in the production process.
- Utilizing natural light in the workshop to minimize the use of electric lamps.

Pengelolaan Limbah | Waste Management

- Mengolah minyak jelantah menjadi lilin dan sabun ramah lingkungan
- Mendaur ulang kertas bekas menjadi kertas benih dan kemasan eco-friendly
- Memanfaatkan limbah organik rumah tangga menjadi eco enzyme* serbaguna

- Processing used cooking oil into eco-friendly candles and soaps.
- Recycling wastepaper into seed paper and eco-friendly packaging.
- Turning household organic waste into versatile eco-enzyme*.

Keterangan | Description:
*Produk eco enzym merupakan produk yang berasal dari proses fermentasi buah dan sayur. Produk ini berbentuk sabun cair dan spray eco enzym.

Eco-enzyme products are made from the fermentation of fruits and vegetables. These products come in the form of liquid soap and eco-enzyme spray.

Pelestarian Keanekaragaman Hayati | Biodiversity Conservation

- Menjadikan kertas daur ulang yang dapat dijadikan kertas benih (*seed paper*) sehingga bisa ditanam kembali.
- Memproduksi cairan serbaguna hasil fermentasi limbah organik, bermanfaat untuk kebutuhan rumah tangga hingga pertanian.

- Producing recycled paper that can be turned into seed paper, allowing it to be replanted and grow into new life.
- Creating a multi-purpose liquid made from the fermentation of organic waste, which can be used for various household and agricultural purposes.

Aspek Sosial | Social Aspects [POJK B.3]

3 Karyawan tidak tetap
Non-permanent employees

15 Sahabat disabilitas yang diberdayakan
Empowered disability friends

Kesehatan & Keselamatan Kerja | Occupational Health and Safety

- Penerapan standar keamanan dasar dalam pembuatan lilin dan sabun.
- Sosialisasi penggunaan APD (sarung tangan, masker) saat produksi.
- Implementing basic safety standards in candle and soap making.
- Promoting the use of PPE (gloves and masks) during production.

Pelatihan Karyawan & Komunitas | Employee & Community Training

- Rata-rata **8 jam** pelatihan per bulan bagi karyawan & sahabat disabilitas.
- Workshop rutin untuk komunitas tentang daur ulang kertas, *eco enzyme*, dan *decoupage*.
- Average 8 hours of training per month for employees and friends with disabilities.
- Regular workshops for the community on paper recycling, eco enzymes, and decoupage.

Sambutan Pemilik | Greetings from Owner's [POJK D.1]

Para Pemangku Kepentingan yang Terhormat,
Dengan penuh rasa syukur, saya mempersembahkan laporan keberlanjutan 2024 Arnetta Craft. Sejak awal berdiri, Arnetta Craft hadir dengan semangat "*From Nothing to Something*" yaitu mengubah limbah yang dianggap tidak bernilai menjadi produk ramah lingkungan yang bermanfaat, indah, dan sekaligus memiliki nilai sosial.

Kebijakan untuk Merespon Tantangan
Sepanjang tahun 2024, salah satu tantangan yang dihadapi adalah munculnya kesamaan produk dan pesaing di antara para pelaku usaha sejenis. Hal ini menimbulkan persaingan yang cukup ketat di pasar dan menuntut adanya diferensiasi produk. Sebagai respons, Arnetta Craft berupaya menghadirkan inovasi melalui pengembangan produk yang lebih kreatif dan memiliki nilai tambah, seperti memodifikasi bentuk produk menjadi lebih kreatif, serta menawarkan produk dalam bentuk hampers dan paket penjualan. Selain itu, dilakukan strategi kolaborasi dengan pelaku UMKM lain, misalnya mengolah limbah buah fermentasi dan minyak jelantah menjadi sabun dan lilin, yang kemudian dipasarkan sebagai produk bundling atau produk kolaborasi. Upaya ini tidak hanya meningkatkan daya saing, tetapi juga mencerminkan komitmen terhadap prinsip keberlanjutan melalui pengurangan limbah dan pemberdayaan UMKM lokal.

Peluang dan Rencana Ke Depan
Kami menyadari bahwa saat ini telah banyak diperjual belikan produk inovasi yang ramah lingkungan. Guna bersaing dengan produk yang lainnya, maka kami terus berupaya memanfaatkan peluang yang ada, di antaranya melakukan digital marketing dan memperkuat berbagai produk kami di e-commerce. Ke depan kami akan terus berupaya mengembangkan produk yang ramah lingkungan seperti pensil bibit yang berasal dari kertas daur ulang dan karbol *eco enzym*.

Apresiasi
Perjalanan ini menegaskan bahwa bagi kami, keberlanjutan bukan sekadar konsep, melainkan praktik nyata yang menjadi fondasi usaha. Kami tidak hanya berfokus pada pencapaian ekonomi, tetapi juga menempatkan kepedulian lingkungan dan pemberdayaan sosial sebagai pilar utama. Dengan melibatkan sahabat disabilitas dan komunitas lokal, kami percaya bahwa setiap produk Arnetta Craft bukan hanya hasil karya, melainkan juga wujud nyata kontribusi kecil untuk bumi yang lebih baik. Saya berharap laporan ini tidak hanya menjadi refleksi atas langkah-langkah yang telah ditempuh, tetapi juga menjadi inspirasi untuk terus berinovasi, berkolaborasi, dan menciptakan dampak positif yang lebih luas bagi lingkungan maupun masyarakat.

Dear Stakeholders,
With heartfelt gratitude, I am pleased to present the Arnetta Craft 2024 Sustainability Report. Since its establishment, Arnetta Craft has carried the spirit of "From Nothing to Something" transforming waste materials once considered worthless into eco-friendly products that are useful, beautiful, and socially meaningful.

Policies in Response to Challenges
Throughout 2024, one of the main challenges we faced was the increasing similarity of products and competition among businesses in the same sector. This situation created intense market competition and demanded product differentiation. In response, Arnetta Craft sought to deliver innovation through the development of more creative and value-added products, such as modifying product designs and offering items in the form of hampers and bundled packages. Additionally, we implemented a collaborative strategy with other MSME partners—for instance, processing fermented fruit waste and used cooking oil into soaps and candles, which were then marketed as bundled or co-branded products. These efforts not only enhanced competitiveness but also reflected our commitment to sustainability principles through waste reduction and local MSME empowerment.

Opportunities and Future Plans
We recognize that many innovative and eco-friendly products are now available in the market. To stay competitive, we continue to seize every opportunity, including expanding our presence through digital marketing and strengthening the visibility of our products on e-commerce platforms. Looking ahead, we are committed to continuously developing environmentally friendly products, such as seed pencils made from recycled paper and eco-enzyme disinfectant.

Appreciation
This journey reaffirms that, for us, sustainability is not merely a concept—it is a tangible practice and the foundation of our business. Our focus goes beyond economic performance; we place environmental care and social empowerment as our core pillars. By engaging persons with disabilities and local communities, we believe that every Arnetta Craft product is not just a creation, but a meaningful contribution to a better planet. I hope this report serves not only as a reflection of the steps we have taken but also as an inspiration to keep innovating, collaborating, and creating a broader positive impact for both the environment and society. My sincere gratitude goes to our partners, local communities, friends with disabilities, and loyal customers who continue to support Arnetta Craft's journey. Together, let us move forward with the spirit of sustainability.

Jakarta, Oktober | October 2024

Profil Perseroan | Company Profile [GRI 2-1]

Sejarah Perusahaan
Company History

Arnetta Craft telah mulai dirintis sejak 2017, Arnetta Craft lahir sebagai usaha kerajinan sederhana yang kemudian berkembang menjadi usaha sosial kreatif dengan fokus pada keberlanjutan dan pemberdayaan komunitas. Berawal dari karya tangan seperti tas, tempat tisu, dan aksesori, Arnetta Craft memperluas kreasinya dengan mendaur ulang limbah, termasuk minyak jelantah, kertas bekas, dan bahan tak terpakai lainnya, menjadi produk ramah lingkungan seperti sabun, lilin aromaterapi, dan kemasan kertas benih. Semangat berbagi ilmu, kepedulian lingkungan, serta pemberdayaan sahabat disabilitas menjadi inti dari setiap langkahnya, sehingga berbagai apresiasi dan kolaborasi dengan mitra pun terwujud, termasuk pengembangan produk eco-enzyme dan pendirian Rumah Pilah Teratai Putih sebagai pusat edukasi pengelolaan sampah. Kini, Arnetta Craft tidak hanya menghadirkan produk dengan nilai seni dan fungsi, tetapi juga membawa dampak sosial dan lingkungan yang nyata bagi masyarakat.

Founded in 2017, Arnetta Craft began as a small handicraft business and has since evolved into a creative social enterprise focused on sustainability and community empowerment. Starting with handmade creations such as bags, tissue holders, and accessories, Arnetta Craft expanded its innovation by recycling waste materials—including used cooking oil, wastepaper, and other unused resources—into eco-friendly products such as soaps, aromatherapy candles, and seed paper packaging. The spirit of knowledge sharing, environmental care, and empowerment of persons with disabilities lies at the heart of every step we take. This dedication has led to various recognitions and collaborations with partners, including the development of eco-enzyme products and the establishment of Rumah Pilah Teratai Putih, a learning center for waste management education. Today, Arnetta Craft not only produces items of artistic and functional value but also creates tangible social and environmental impacts for the community.

Visi, Misi, dan Budaya Perusahaan
Vision, Mission, and Corporate Culture [POJK C.1] [GRI 2-23]

Visi | Vision

Menjadi usaha sosial-kreatif terdepan dalam mengubah limbah menjadi produk ramah lingkungan bernilai tinggi, yang berkontribusi bagi kelestarian bumi serta pemberdayaan sahabat disabilitas dan komunitas.

To become a leading social-creative enterprise in transforming waste into high-value eco-friendly products, contributing to environmental sustainability and the empowerment of people with disabilities and communities.

Misi | Mission

1. Mengolah limbah rumah tangga dan komunitas seperti minyak jelantah, kertas bekas, kain perca, dan sampah organik menjadi produk bernilai guna.
2. Menghasilkan produk ramah lingkungan inovatif (lilin, sabun, eco enzyme, kertas benih, kerajinan kreatif) yang bermanfaat dan berkelanjutan.
3. Memberdayakan sahabat disabilitas dan komunitas lokal melalui pelatihan, pendampingan, dan kolaborasi usaha kreatif.
4. Membangun kesadaran lingkungan melalui edukasi, workshop, dan program Rumah Pilah Teratai Putih sebagai pusat pembelajaran pilah sampah.
5. Mengembangkan jaringan usaha berkelanjutan di tingkat lokal, nasional, hingga internasional melalui kolaborasi dengan UMKM, lembaga, dan mitra global.

1. Processing household and community waste such as used cooking oil, wastepaper, fabric scraps, and organic waste into useful and value-added products.
2. Producing innovative eco-friendly products (candles, soaps, eco-enzymes, seed paper, and creative crafts) that are both beneficial and sustainable.
3. Empowering persons with disabilities and local communities through training, mentoring, and creative business collaborations.
4. Raising environmental awareness through educational programs, workshops, and the Rumah Pilah Teratai Putih, a learning center for waste sorting and management.
5. Expanding sustainable business networks at local, national, and international levels through collaboration with MSMEs, institutions, and global partners.

Kreativitas | Creativity

Kami berkomitmen untuk terus menghadirkan ide-ide baru dalam setiap produk dan pelatihan, sehingga setiap karya Arnetta Craft memiliki nilai unik, bermanfaat, dan ramah lingkungan.

We are committed to continuously bringing new ideas in every product and training, ensuring that each Arnetta Craft creation carries unique, useful, and eco-friendly value.

Kolaborasi | Collaboration

Kami percaya bahwa kekuatan komunitas dan kerja sama dengan sahabat disabilitas, masyarakat, dan mitra usaha adalah kunci dalam
mewujudkan visi keberlanjutan.

We believe that the strength of community and collaboration with people with disabilities, society, and business partners is the key to realizing sustainability.

Keberlanjutan | Sustainability

Kami menjadikan prinsip ramah lingkungan sebagai dasar operasional, dari pemanfaatan limbah hingga pemberdayaan manusia, untuk memberi dampak positif bagi bumi dan generasi mendatang.

We embrace eco-friendly principles as the foundation of our operations, from waste utilization to human empowerment, to create a positive impact for the Earth and future generations.

Jejak Langkah
Milestones

2017
Arnetta Craft mulai dirintis dengan kegiatan kerajinan decoupage dan sospeso, menghasilkan produk tas, tempat tisu, bros, kalung, dan lain-lain.
Arnetta Craft began with decoupage and sospeso craft activities, producing items such as bags, tissue holders, brooches, necklaces, and other handmade products.

2018
Memulai kegiatan sosial sedekah ilmu dan berfokus pada daur ulang minyak jelantah menjadi produk sabun dan lilin sederhana untuk keluarga serta komunitas sekitar.
Started social knowledge-sharing activities and focused on recycling used cooking oil into simple soaps and candles for families and local communities

2019
Mendapat penghargaan Ibu Ibukota Award 2019 kategori Pemberdayaan dan Kerajinan atas kontribusi sosial dan lingkungan.
Received the Ibu Ibukota Award 2019 in the Empowerment and Handicrafts category, recognizing social and environmental contributions.

2021
Menjadi narasumber di program Kick Andy dengan tema Ibu Rumah Tangga Plus Plus.
Served as a guest speaker in Kick Andy program, highlighting "Housewife Plus Plus."

2022
Menjadi finalis program Wepreneur II BCA Syariah sebagai UMKM berdaya guna lingkungan dan sosial.
Became a finalist in the Wepreneur II BCA Syariah program as an environmentally and socially impactful MSME.

2024
Mengembangkan produk ramah lingkungan baru bersama Allianz, serta mengembangkan sabun eco enzyme melalui kolaborasi dengan UMKM Asinan Fermentasi Niekting.
Developed new eco-friendly products with Allianz, including eco-enzyme soap, and collaborated with Niekting Fermented Pickles MSME.

Nilai, Strategis, dan Komitmen
Values, Strategy, and Commitment [POJK C.1, F.1]

Arnetta Craft berdiri berdasarkan nilai nilai keberlanjutan dengan nilai utamanya yaitu "From Nothing to Something" dan "Langkah Kecil untuk Bumi yang Lebih Baik". Nilai ini tercermin dalam setiap aktivitas usaha, mulai dari pemanfaatan minyak jelantah, sampah rumah tangga, hingga pemberdayaan komunitas disabilitas.

Arnetta Craft was founded on sustainability values, with its core principles being "From Nothing to Something" and "Small Steps for a Better Earth." These values are reflected in every aspect of the business—from the utilization of used cooking oil and household waste to the empowerment of disability communities.

Komitmen strategi Arnetta Craft
Arnetta Craft's Strategic Commitments:

Mengurangi limbah lingkungan melalui upcycling.
Reducing environmental waste through upcycling practices.

Menghasilkan produk ramah lingkungan yang bernilai ekonomi.
Producing eco-friendly products with strong economic value.

Meningkatkan keterampilan masyarakat, khususnya kelompok rentan dan disabilitas.
Enhancing community skills, especially among vulnerable groups and persons with disabilities.

Menyediakan produk eco-friendly dengan kualitas baik untuk pasar domestik dan korporasi.
Providing high-quality eco-friendly products for both domestic and corporate markets.

Sekilas Tentang Arnetta Craft

A Glance at Arnetta Craft [GRI 2-1, 2-3, 2-6]

Laporan Keberlanjutan ini menyajikan informasi mengenai operasional Arnetta Craft yang berfokus pada pengolahan limbah menjadi produk ramah lingkungan, pemberdayaan komunitas, serta pelibatan sahabat disabilitas dalam proses bisnis. Sejalan dengan komitmen keberlanjutan, Arnetta Craft tidak hanya berorientasi pada aspek ekonomi dan pencapaian kinerja finansial, tetapi juga menjadikan aspek sosial dan lingkungan sebagai pilar utama dalam menjalankan usaha. Cakupan laporan ini meliputi periode 1 Januari hingga 31 Desember 2024.

This Sustainability Report presents information on Arnetta Craft's operations, which focus on transforming waste into eco-friendly products, empowering communities, and engaging persons with disabilities in its business processes. In line with our commitment to sustainability, Arnetta Craft is not only oriented toward economic aspects and financial performance but also places social and environmental aspects as the main pillars of its business practices. The scope of this report covers the period from January 1 to December 31, 2024.

Kegiatan Usaha dan Produk | Business Activities and Products [GRI 2-6]

Arnetta Craft menghadirkan beragam produk ramah lingkungan hasil inovasi dari limbah rumah tangga dan sumber daya alam, sekaligus memberdayakan komunitas dan sahabat disabilitas. Produk kami tidak hanya memiliki nilai fungsi, tetapi juga mengandung pesan sosial dan keberlanjutan. Selain itu, Arnetta Craft juga menyediakan paket pelatihan kreatif, workshop edukasi, dan layanan kemasan ramah lingkungan untuk sekolah, komunitas, maupun perusahaan yang peduli lingkungan.

Arnetta Craft presents a wide range of eco-friendly products innovatively crafted from household waste and natural resources, while also empowering local communities and persons with disabilities. Our products not only serve a functional purpose but also carry strong social and sustainability messages. In addition, Arnetta Craft offers creative training packages, educational workshops, and eco-friendly packaging services for schools, communities, and environmentally conscious companies.

LUCORA sabun cuci (Dishwash)
Sabun cuci padat ramah lingkungan berbahan dasar minyak jelantah, dipadukan dengan merak sebagai pembersih alami.
Eco-friendly solid dishwashing soap made from used cooking oil, combined with natural cleaning agents.

Seed paper and seed pencils
Kertas daur ulang dan pensil yang dapat ditanam kembali. Produk ini digunakan sebagai hangtag, kartu ucapan, maupun souvenir ramah lingkungan.
Recycled paper and plantable pencils. These products are used as hangtags, greeting cards, and eco-friendly souvenirs.

Eco Enzyme Multipurpose
Cairan serbaguna hasil fermentasi limbah organik, bermanfaat untuk kebutuhan rumah tangga hingga pertanian.
Multipurpose liquid from organic waste fermentation, useful for households to agriculture.

LUCORA lilin wangi
Lilin aromaterapi eco-friendly berbahan minyak jelantah, tersedia dalam berbagai aroma natural.
Eco-friendly aromatherapy candles made from used cooking oil, available in various natural scents.

Decoupage & Sospeso
Kerajinan tangan unik dengan teknik decoupage (menempel tisu bergambar) dan sospeso dari kain perca batik.
Unique handicrafts made using decoupage (decorative napkin layering) and sospeso techniques with batik fabric scraps

Training and Workshop Packages
Pelatihan kreatif inklusif: daur ulang kertas, lilin wangi, eco enzyme, decoupage, sospeso, eco pounding, dan lainnya.
Inclusive creative training: paper recycling, scented candles, eco-enzyme, decoupage, sospeso, eco pounding, and more.

Rantai Pasokan | Supply Chain [GRI 2-6]

Pengumpulan Bahan Baku
Minyak jelantah dikumpulkan dari rumah tangga, restoran, serta mitra komunitas. Selain itu juga dikumpulkan limbah kertas, kain perca, dan bahan alami untuk eco enzyme.

Raw Material Collection
Used cooking oil is collected from households, restaurants, and community partners. In addition, paper waste, fabric scraps, and natural ingredients for eco-enzyme are also gathered.

Seleksi & Penyaringan Bahan
Minyak jelantah disaring dengan bleaching earth, kertas bekas dipilah, serta bahan organik difermentasi untuk menghasilkan eco enzyme berkualitas.

Material Selection and Screening
Used cooking oil is filtered with bleaching earth, paper waste is sorted, and organic materials are fermented to produce quality eco-enzyme.

Pencatatan & Penentuan Kebutuhan Produksi
Seluruh bahan baku dicatat dan disesuaikan dengan target produksi lilin, sabun, eco enzyme, serta produk kerajinan lainnya.

Recording and Determining Production Requirementsi
All raw materials are recorded and adjusted to meet the production targets for candles, soaps, eco-enzyme, and other crafts.

Proses Produksi Inklusif
Bahan baku diolah bersama sahabat disabilitas melalui proses ramah lingkungan:
pembuatan lilin, sabun, kemasan kertas benih, hingga kerajinan decoupage & eco pounding.

Inclusive Production Process
Raw materials are processed with people with disabilities through eco-friendly production: making candles, soaps, seed paper packaging, and decoupage & eco-pounding crafts.

Kontrol Kualitas
Setiap produk diperiksa untuk memastikan kualitas, keamanan, dan nilai keberlanjutan sesuai standar Arnetta Craft.

Quality Control
Each product is checked to ensure quality, safety, and sustainability in accordance with Arnetta Craft standards.

Distribusi Produk
Produk siap dipasarkan melalui pameran UMKM, pemesanan komunitas, platform online, serta mitra retail ramah lingkungan.

Product Distribution
Products are distributed through MSME exhibitions, community orders, online platforms, and eco-friendly retail partners.

Legalitas, Struktur, dan Tata Kelola | Legality, Structure, and Governance [GRI 2-9]

Arnetta Craft beroperasi sebagai UMKM berbasis komunitas dengan struktur usaha mikro.
Arnetta Craft operates as a community-based MSME with a micro-scale business structure.

Legalitas | Legality

Terdaftar sebagai UMKM binaan komunitas dan mengikuti program pengembangan wirausaha (Empower Academy, WePreneur, Dekranasda, KUR, dll.). Arnetta raft telah terdaftar dengan NIB 1256000720119 sebagai UMKM binaan komunitas dengan struktur usaha mikro yang aktif mengikuti berbagai program pengembangan wirausaha, seperti Empower Academy, WePreneur, Dekranasda, hingga program pembiayaan KUR. Melalui keikutsertaan dalam program-program tersebut, Arnetta Craft tidak hanya memperoleh pengakuan legalitas sebagai pelaku usaha, tetapi juga mendapatkan dukungan dalam peningkatan kapasitas, jaringan, serta akses permodalan yang mendukung keberlanjutan usaha.

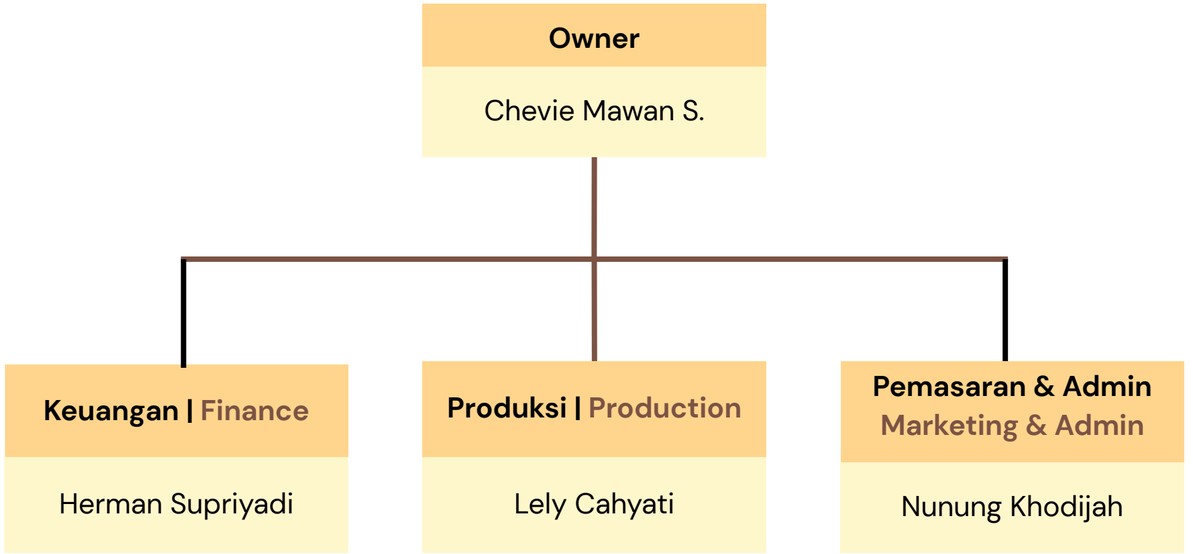

Registered under Business Identification Number (NIB) 1256000720119, Arnetta Craft is recognized as a community-supported MSME that actively participates in various entrepreneurship development programs, such as Empower Academy, WePreneur, Dekranasda, and the KUR financing program. Through participation in these initiatives, Arnetta Craft has not only obtained official business recognition but has also gained valuable support in capacity building, networking, and access to financing, all of which contribute to the sustainability and growth of the enterprise.

Tata Kelola | Governance

Mengedepankan transparansi penggunaan dana, pembagian hasil dengan mitra disabilitas, dan pencatatan produksi berbasis kebutuhan pelatihan maupun pesanan pelanggan. Arnetta Craft menerapkan tata kelola usaha yang mengedepankan transparansi dan akuntabilitas dalam setiap kegiatan. Penggunaan dana dicatat secara terbuka, hasil usaha dibagikan secara adil kepada mitra sahabat disabilitas, serta proses produksi disesuaikan dengan kebutuhan pelatihan dan permintaan pelanggan. Melalui praktik ini, Arnetta Craft berupaya membangun kepercayaan, mendorong kemandirian, dan memastikan keberlanjutan usaha yang bermanfaat bagi komunitas dan lingkungan.

Arnetta Craft upholds transparency and accountability in every aspect of its business operations. The use of funds is recorded openly, profits are shared fairly with partners from the disability community, and the production process is tailored to meet both training needs and customer demands. Through these practices, Arnetta Craft strives to build trust, foster independence, and ensure sustainable business growth that benefits both the community and the environment.

Struktur Organisasi | Organizational structure

Keterangan:
- Owner sekaligus penggerak komunitas (Chevie Mawarti).
- 3 karyawan tidak tetap.
- 10–15 mitra komunitas dan disabilitas

Description:
- Owner and community activist (Chevie Mawarti).
- 3 temporary employees.
- 10–15 community and disability partners

Proses Produksi | Production process [POJK C.4, F.5]

Proses produksi Arnetta Craft berorientasi pada efisiensi, keamanan, dan keberlanjutan.

Bahan Baku Utama | Main Raw Materials:

- Minyak jelantah dari rumah tangga/mitra komunitas.
- Soda api, bleaching earth, dan fragrance oil untuk olahan sabun.
- Palm wax untuk lilin eco-friendly.
- Kertas bekas dan serat alami untuk produk daur ulang.
- Used cooking oil sourced from households and community partners
- Caustic soda, bleaching earth, and fragrance oil for soap production
- Palm wax for eco-friendly candles
- Wastepaper and natural fibers for recycled paper products

Tahapan Produksi | Production Stages:

- Penyaringan & pembersihan minyak jelantah dengan bleaching earth.
- Pencampuran dengan bahan tambahan sesuai formula.
- Pencetakan menjadi sabun, lilin, atau produk turunannya.
- Pengemasan menggunakan kertas benih/kemasan ramah lingkungan.
- Filtering and cleaning used cooking oil with bleaching earth
- Mixing with additional ingredients according to the formula
- Molding into soaps, candles, or derivative products
- Packaging using seed paper or other eco-friendly materials

Pengendalian Mutu | Quality Control:

- Standar kebersihan dan keamanan produk.
- Penerapan Good Manufacturing Practice (GMP) skala UMKM.
- Uji coba produk sebelum dipasarkan.
- Implementation of product hygiene and safety standards
- Adoption of Good Manufacturing Practices (GMP) tailored for MSMEs
- Product testing and trials prior to market distribution

Arnetta Craft merupakan usaha sosial kreatif kerajinan tangan, usaha ini melakukan produksinya dengan mendaur ulang limbah, termasuk minyak jelantah, kertas bekas, dan bahan tak terpakai lainnya, menjadi produk ramah lingkungan seperti sabun, lilin aromaterapi, dan kemasan kertas benih. Proses produksi Arnetta Craft berorientasi pada efisiensi, keamanan, dan keberlanjutan.

Arnetta Craft mengelola proses produksinya dengan pendekatan yang ramah lingkungan dan berkelanjutan, dimulai dari pemilihan bahan baku hingga pengendalian mutu produk. Bahan utama berasal dari limbah rumah tangga dan komunitas, seperti minyak jelantah yang dikumpulkan lalu diolah kembali, kertas bekas yang dipadukan dengan serat alami, hingga palm wax untuk menghasilkan lilin eco-friendly.

Setiap tahap produksi dilakukan secara hati-hati, mulai dari penyaringan dan pembersihan minyak jelantah, pencampuran dengan bahan tambahan sesuai formula, pencetakan menjadi sabun, lilin, maupun produk turunannya, hingga pengemasan yang menggunakan kertas benih ramah lingkungan.

Untuk menjaga kualitas, Arnetta Craft menerapkan standar kebersihan dan keamanan produk dengan mengacu pada Good Manufacturing Practice (GMP) skala UMKM, serta melakukan uji coba sebelum dipasarkan. Dengan cara ini, setiap produk tidak hanya memiliki nilai guna dan estetika, tetapi juga membawa pesan keberlanjutan, keamanan, dan kepedulian terhadap lingkungan.

Arnetta Craft is a creative social enterprise specializing in handmade crafts. The business carries out its production activities by recycling waste materials—including used cooking oil, wastepaper, and other unused items—into eco-friendly products such as soaps, aromatherapy candles, and seed paper packaging. The production process of Arnetta Craft is oriented toward efficiency, safety, and sustainability.

Arnetta Craft manages its production process using an environmentally friendly and sustainable approach, starting from the selection of raw materials to product quality control. The main materials are sourced from household and community waste, such as used cooking oil that is collected and refined, wastepaper combined with natural fibers, and palm wax used to create eco-friendly candles.

Each production stage is carried out with great care—from filtering and purifying used cooking oil, mixing ingredients according to the formula, and molding into soaps, candles, or derivative products, to packaging using eco-friendly seed paper.

To ensure quality, Arnetta Craft applies product hygiene and safety standards based on Good Manufacturing Practice (GMP) adapted for MSMEs and conducts product testing before marketing. Through this approach, every product not only carries functional and aesthetic value but also embodies a message of sustainability, safety, and environmental care.

Hingga akhir 2024, Arnetta Craft belum memiliki sertifikat halal untuk seluruh produknya. Namun demikian, kami meyakini produk yang dihasilkan halal dikarenakan saat mengambil bahan baku berupa minyak jelantah sudah dilakukan pemisahan yang berasal dari minyak halal dan non halal. Hal ini juga merupakan salah satu SOP di Arnetta Craft.

As of the end of 2024, Arnetta Craft has not yet obtained halal certification for all of its products. However, we are confident that our products are halal-compliant, as we have implemented a standard operating procedure (SOP) to ensure separation between halal and non-halal sources when collecting used cooking oil as raw material. This process reflects our commitment to maintaining product integrity and consumer trust.

Strategi Keberlanjutan | Sustainability Strategy [POJK A.1] [GRI 2-2]

Komitmen dan Visi Sosial, Lingkungan, Ekonomi | Social, Environmental, and Economic Commitments and Vision

Sosial | Social:

- Pemberdayaan masyarakat disabilitas dan kelompok rentan melalui pelatihan keterampilan.
- Memberikan kesempatan kerja inklusif melalui keterlibatan mitra disabilitas dalam produksi
- Edukasi masyarakat tentang gaya hidup ramah lingkungan.
- Empowering persons with disabilities and vulnerable groups through skills training programs.
- Providing inclusive employment opportunities by involving disability partners in the production process.
- Educating the public on environmentally friendly and sustainable lifestyles..

Lingkungan | Environmental:

- Mengurangi polusi air dan tanah dengan mendaur ulang minyak jelantah.
- Mengurangi timbulan sampah dengan mengolah kertas bekas dan limbah rumah tangga.
- Menggunakan kemasan ramah lingkungan (kertas benih, bahan daur ulang).
- Reducing water and soil pollution by recycling used cooking oil.
- Minimizing waste generation through the processing of wastepaper and household waste.
- Using eco-friendly packaging, such as seed paper and recycled materials.

Ekonomi | Economy:

- Menciptakan produk eco-friendly dengan nilai jual kompetitif.
- Menjaga kestabilan pendapatan usaha (Rp 20–35 juta/bulan)
- Memberikan kontribusi ekonomi berkelanjutan bagi komunitas mitra.
- Creating eco-friendly products with competitive market value.
- Maintaining business income stability (IDR 20–35 million per month).
- Contributing to sustainable economic growth for partner communities.

Arnetta Craft merancang strategi keberlanjutan dengan menyeimbangkan aspek sosial, lingkungan, dan ekonomi agar usaha yang dijalankan tidak hanya bermanfaat bagi pemilik, tetapi juga memberi dampak nyata bagi komunitas dan alam sekitar.

Pada aspek sosial, kami fokus pada pemberdayaan masyarakat disabilitas dan kelompok rentan melalui pelatihan keterampilan, sekaligus membuka kesempatan kerja inklusif dengan melibatkan mereka secara aktif dalam proses produksi. Terdapat 15 sahabat disabilitas yang diberdayakan dan 2-3 karyawan tidak tetap. Selain itu, kami juga berbagi pengetahuan kepada masyarakat tentang pentingnya gaya hidup ramah lingkungan, sehingga keberlanjutan dapat dipahami dan dijalankan bersama.

Pada aspek lingkungan, kami berupaya mengurangi polusi air dan tanah dengan mendaur ulang minyak jelantah menjadi sabun dan lilin, serta mengolah kertas bekas dan limbah rumah tangga menjadi produk baru yang bermanfaat. Kami juga konsisten menggunakan kemasan ramah lingkungan, seperti kertas benih dan bahan daur ulang, untuk memastikan setiap produk yang dihasilkan mendukung praktik hijau.

Pada aspek ekonomi, Arnetta Craft terus menciptakan produk eco-friendly dengan nilai jual yang kompetitif, menjaga stabilitas pendapatan usaha di kisaran Rp 20–35 juta per bulan, sekaligus memberikan kontribusi ekonomi yang berkelanjutan bagi komunitas mitra. Dengan cara ini, kami percaya bahwa keberlanjutan dapat dicapai secara holistik—membangun manusia, menjaga lingkungan, dan menggerakkan roda ekonomi secara seimbang.

Arnetta Craft designs its sustainability strategy by balancing social, environmental, and economic aspects, ensuring that the business not only benefits its owners but also creates a tangible positive impact on the community and the environment.

On the social aspect, we focus on empowering persons with disabilities and vulnerable groups through skills training, while also providing inclusive employment opportunities by involving them directly in the production process. Currently, 15 partners with disabilities are empowered, supported by 2–3 non-permanent workers. In addition, we actively share knowledge with the public about the importance of an eco-friendly lifestyle, enabling sustainability to be understood and practiced collectively.

From the environmental perspective, we strive to reduce water and soil pollution by recycling used cooking oil into soap and candles, as well as repurposing wastepaper and household waste into new, useful products. We also remain committed to using eco-friendly packaging, such as seed paper and recycled materials, to ensure that every product supports green practices.

On the economic front, Arnetta Craft continues to create eco-friendly products with competitive market value, maintaining a stable monthly business income in the range of IDR 20–35 million, while contributing to the sustainable economic growth of partner communities. Through these efforts, we believe sustainability can be achieved holistically—by developing people, preserving the environment, and driving the economy in balance.

Nilai, Strategi, dan Komitmen

Values, Strategy, and Commitment

Jaminan Kualitas | Quality Assurance
Kami melakukan prosedur penentuan pemasok untuk memastikan bahan baku yang di pasok selalu siap ketersediaan nya dan kualitas yang baik.
We implement a supplier selection procedure to ensure the continuous availability and high quality of raw materials used in our production process.

Berorientasi Lokal | Local Orientation
Menggunakan bahan-bahan lokal dan arnetta craft memberdayakan warga binaan dari masyarakat maupun disabilitas, agar bisa berkontribusi bagi peningkatan kemandirian dan sosial.
We prioritize the use of locally sourced materials and empower community members and persons with disabilities, enabling them to contribute to greater independence and social improvement.

Fokus Ke Masa Depan | Future Focus
Arnetta Craft selalu melihat ke depan, mengikuti peluang pasar, dan tetap menjaga kelestarian alam sekitar.
Arnetta Craft maintains a forward-looking approach, continuously exploring market opportunities while remaining committed to preserving the surrounding environment.

Kegiatan Operasional yang Menjaga Lingkungan

Operational Activities that Protect the Environment

Penggunaan Energi dan Emisi yang Dihasilkan

Energy Use and Emissions Generated [POJK F.6] [GRI 302-1, 302-2]

Arnetta Craft berupaya menjaga konsumsi energi seminimal mungkin dengan penggunaan sumber daya yang efisien:

- Energi Gas Alam (PGN): digunakan untuk proses penyulingan minyak jelantah, rata-rata 10 m³ per bulan dengan biaya sekitar Rp48.000
- Energi Listrik: digunakan untuk peralatan produksi dan penerangan, rata-rata Rp120.000 per bulan
- Transportasi & Logistik: distribusi produk menggunakan kurir lokal (ojek online), rata-rata 180 km per bulan.

Total emisi karbon diperkirakan berasal dari gas, listrik, dan transportasi, namun secara skala UMKM masih relatif kecil. Sehingga sampai dengan akhir 2024, kami belum melakukan perhitungan emisi yang dihasilkan.

Arnetta Craft senantiasa berupaya menjaga konsumsi energi seminimal mungkin dengan mengutamakan efisiensi dalam setiap kegiatan produksi dan distribusi. Dalam proses penyulingan minyak jelantah, energi yang digunakan berasal dari gas alam (PGN) dengan rata-rata konsumsi sekitar 10 m³ per bulan atau setara biaya Rp48.000. Untuk mendukung operasional sehari-hari, Arnetta Craft memanfaatkan energi listrik terutama untuk peralatan produksi dan penerangan, dengan rata-rata penggunaan sekitar Rp100.000 per bulan.

Pada aspek transportasi dan logistik, distribusi produk dilakukan secara sederhana melalui kurir lokal (ojek online), dengan jarak tempuh rata-rata 180 km per bulan. Langkah ini sekaligus mendukung UMKM lain dan pekerja lokal, sambil menjaga efisiensi energi serta menekan jejak karbon dari aktivitas distribusi. Dengan pendekatan ini, Arnetta Craft berkomitmen untuk terus mengoptimalkan penggunaan energi secara bijak sekaligus meminimalkan emisi yang dihasilkan.

Arnetta Craft strives to minimize energy consumption by utilizing resources efficiently:

- Natural Gas (PGN): Used for the refining process of used cooking oil, averaging 10 m³ per month with an approximate cost of IDR 48,000.
- Electricity: Used for production equipment and lighting, averaging IDR 120,000 per month.
- Transportation & Logistics: Product distribution is carried out through local couriers (online motorcycle delivery services), covering an average distance of 180 km per month.

The total carbon emissions are estimated to originate from gas, electricity, and transportation activities. However, considering the micro-scale nature of the business, the emissions remain relatively small. Therefore, as of the end of 2024, Arnetta Craft has not yet conducted a detailed calculation of its carbon footprint.

Arnetta Craft consistently strives to minimize energy consumption by prioritizing efficiency in every stage of its production and distribution activities. In the used cooking oil refining process, energy is sourced from natural gas (PGN), with an average consumption of approximately 10 m³ per month, equivalent to a cost of around Rp48,000. To support daily operations, Arnetta Craft utilizes electricity mainly for production equipment and lighting, with an average monthly usage cost of around Rp100,000.

In terms of transportation and logistics, product distribution is carried out simply through local couriers (online motorcycle delivery services), covering an average distance of 180 km per month. This approach not only supports other small businesses and local workers but also helps improve energy efficiency and reduce the carbon footprint associated with distribution activities.

Pengelolaan Limbah | Waste Management [POJK F.14] [GRI 306-1, 306-2]

- Arnetta craft berkontribusi terhadap lingkungan karena produk produk utama merupakan upcycle produk dari limbah rumah tangga khususnya minyak jelantah yang diubah menjadi produk suvenir dan hamper
- Hasil akhir *upcycle* berupa endapan penjernihan minyak di olah menjadi pot pot mini untuk bahan produk suvenir kembali
- Hal ini membuktikan komitmen kami untuk melestarikan lingkungan dan sebagai pemberdayaan warga

- Arnetta Craft contributes to environmental sustainability by upcycling household waste—particularly used cooking oil—into creative products such as souvenirs and hampers
- The residual by-products from the oil purification process are further reused and transformed into mini pots, which are then incorporated into souvenir item
- These efforts demonstrate Arnetta Craft's strong commitment to environmental preservation while simultaneously empowering the local community through creative and sustainable practices.

Arnetta Craft berkomitmen untuk tidak meninggalkan limbah berbahaya pada lingkungan:

- Minyak Jelantah: diolah menjadi sabun dan lilin sehingga tidak mencemari air/tanah.
- Bleaching Earth: residu padat dikeringkan dan dimanfaatkan kembali untuk bahan campuran semen untuk di buat aneka pot tatakan gelas dll
- Sisa Sabun & Lilin: potongan sisa produksi dilebur ulang sehingga tidak ada limbah produk.
- Air Buangan: dijaga agar tidak mengandung bahan kimia berbahaya

Arnetta Craft is committed to ensuring that no hazardous waste is left in the environment:

- Used Cooking Oil: processed into soap and candles to prevent water and soil contamination.
- Bleaching Earth (solid residue): dried and repurposed as a mixture for making cement-based products such as mini pots and coasters.
- Soap and Candle Residues: leftover production pieces are remelted and reused, ensuring zero product waste.
- Wastewater: carefully managed to ensure it contains no harmful chemicals.

Arnetta Craft berkomitmen untuk menjalankan proses produksi yang bertanggung jawab dengan memastikan tidak ada limbah berbahaya yang ditinggalkan pada lingkungan. Setiap jenis limbah yang dihasilkan dikelola secara bijak agar dapat memberikan nilai tambah sekaligus mendukung prinsip ekonomi sirkular.

Arnetta Craft is committed to implementing responsible production processes by ensuring that no hazardous waste is left in the environment. Every type of waste generated is managed wisely to create added value while supporting the principles of a circular economy.

Minyak jelantah yang berpotensi mencemari air dan tanah diolah kembali menjadi produk bernilai guna seperti sabun dan lilin, sehingga limbah cair ini tidak berakhir di saluran pembuangan. Residu padat berupa bleaching earth dikeringkan lalu dimanfaatkan sebagai bahan campuran untuk pembuatan semen, pot, dan tatakan gelas, sehingga mampu menghadirkan produk fungsional sekaligus mengurangi timbulan limbah. Sementara itu, sisa potongan sabun dan lilin dari proses produksi tidak terbuang percuma, melainkan dilebur kembali menjadi produk baru. Untuk aspek air buangan, Arnetta Craft memastikan bahwa tidak ada kandungan bahan kimia berbahaya yang dapat mencemari lingkungan sekitar.

Used cooking oil, which has the potential to pollute water and soil, is reprocessed into useful products such as soap and candles, preventing liquid waste from ending up in waterways. Solid residue in the form of bleaching earth is dried and reused as a mixture for making cement-based items such as pots and coasters, turning waste into functional products while reducing overall waste generation. Meanwhile, leftover soap and candle pieces from the production process are remelted and transformed into new products, ensuring nothing goes to waste.

Melalui praktik ini, Arnetta Craft berupaya menerapkan konsep zero waste production dalam skala UMKM, dengan memaksimalkan potensi limbah sebagai sumber daya, sekaligus menjaga kelestarian lingkungan dan memberikan manfaat ekonomi tambahan bagi komunitas.

In managing wastewater, Arnetta Craft ensures that no harmful chemicals are discharged into the environment. Through these practices, Arnetta Craft strives to implement a zero-waste production concept at the MSME scale—maximizing the potential of waste as a resource, preserving environmental sustainability, and creating additional economic value for the community.

Pengelolaan Limbah dan Bahan Kain
Management Waste Fabric and other Materials

Kain perca serta bahan sisa lain dimanfaatkan dalam kegiatan produksi bros dan pelatihan kerajinan Sospeso. Produk ini menjadi media kreativitas sekaligus sarana pemberdayaan sahabat disabilitas.

Fabric scraps and other leftover materials are utilized in the production of brooches and Sospeso crafts workshops. These products serve as creative media and empowerment for people with disabilities.

Pengelolaan Minyak Jelantah
Waste Cooking Management

Arnetta Craft mengumpulkan minyak jelantah dari rumah tangga, restoran, serta komunitas mitra. Minyak jelantah kemudian disaring menggunakan bleaching earth dan diproses menjadi bahan utama Lucora Candle dan sabun ramah lingkungan.

Arnetta Craft collects used cooking oil from households, restaurants, and community partners. The oil is filtered using bleaching earth and processed into the main raw material for Lucora Candles and eco-friendly soaps.

Limbah Kertas | Paper Waste

Kertas bekas dikumpulkan, dicacah, dan dicetak kembali menjadi kertas benih yang dapat ditanam, serta digunakan sebagai hangtag dan kemasan produk ramah lingkungan.

Used paper is collected, shredded, and recycled into seed paper, which is plantable and used as eco-friendly packaging and product hangtags.

Program Pilah Sampah (Rumah Pilah Teratai Putih)

Waste Sorting Program [POJK F.17]

Rumah Pilah Sampah Teratai Putih adalah inisiatif sosial yang berfokus pada pengelolaan pilah sampah berbasis masyarakat serta berperan dalam mendukung dan berkontribusi terhadap salah satu pencapaian target, yaitu jumlah tonase sampah plastik yang berhasil dikurangi dan atau ditangani.

Selain itu kami juga memadukan pelestarian lingkungan oleh pilah sampah yang di pilah, dikumpulkan lalu di tabung melalui kerjasama dengan Bank Sampah Gunung Emas dan pemberdayaan melalui kerajinan daur ulang. Kami menjadi pusat edukasi, pemilahan, dan pengolahan sampah serta pengembangan produk kreatif berbasis limbah.

The Teratai Putih Waste Sorting House is a social initiative focused on community-based waste segregation management, playing an active role in supporting and contributing to one of the key targets — reducing and/or managing the total tonnage of plastic waste.

In addition, we integrate environmental conservation through waste sorting, where collected materials are deposited in collaboration with the Gunung Emas Waste Bank and empowerment initiatives through recycled crafts. We serve as a center for education, waste sorting and processing, as well as the development of creative, waste-based products.

Sebagai pusat kegiatan edukasi, Rumah Pilah Teratai Putih menjadi bagian penting dari upaya menjaga lingkungan.

As a center for educational activities, the White Lotus Sorting House is an important part of environmental protection efforts.

Kegiatan Utama | Main Activity

- Edukasi Pilah Sampah untuk anak-anak TK, SD, dan SLB dengan metode visual & praktik langsung
- Bank Sampah Mini: masyarakat dapat menukar sampah anorganik (plastik, botol, kardus) dengan insentif sederhana.
- Pemanfaatan Organik: sampah dapur dikumpulkan untuk pembuatan eco-enzym, kompos, dan pakan maggot.
- Pada dasarnya sampah organik rumah tangga dimanfaatkan untuk pembuatan eco-enzym, kompos, dan pakan maggot, yang bermanfaat bagi lingkungan sekaligus mendukung praktik pertanian ramah lingkungan. Adapun sampah anorganik seperti kertas, kain, dan plastik bersih diolah dalam pelatihan kreatif menjadi kerajinan, kartu ucapan, hingga media decoupage, memberikan peluang pemberdayaan ekonomi baru bagi komunitas sekitar.
- Pelatihan Kreatif: sampah anorganik seperti kertas, kain, dan plastik bersih diolah menjadi kerajinan, kartu ucapan, atau media decoupage.
- Program ini tidak hanya mengurangi timbulan sampah, tetapi juga menjadi sarana pemberdayaan ekonomi dan edukasi lingkungan bagi masyarakat sekitar.

- Waste Sorting Education for Kindergarten, Elementary, and Special Needs Schools (SLB) using visual methods and hands-on practice.
- Mini Waste Bank: Communities can exchange inorganic waste (plastic, bottles, cardboard) for simple incentives.
- Organic Utilization: Kitchen waste is collected to make eco-enzymes, compost, and maggot feed.
- Basically, household organic waste is used to make eco-enzymes, compost, and maggot feed, which benefits the environment while supporting eco-friendly agricultural practices. Inorganic waste such as paper, cloth, and clean plastic is processed through creative training into crafts, greeting cards, and decoupage media, providing new economic empowerment opportunities for the surrounding community.
- Creative Training: Inorganic waste such as paper, cloth, and clean plastic is processed into crafts, greeting cards, or decoupage media.
- This program not only reduces waste generation but also serves as a means of economic empowerment and environmental education for the surrounding community.

> “Ke depan, Rumah Pilah Teratai Putih bukan hanya membantu mengurangi sampah, tetapi juga menjadi sarana pembelajaran, kolaborasi, dan pemberdayaan yang menumbuhkan kesadaran lingkungan sekaligus memberikan dampak ekonomi positif bagi masyarakat.
>
> Looking ahead, Rumah Pilah Teratai Putih aims to go beyond waste reduction—becoming a hub for learning, collaboration, and empowerment that fosters environmental awareness while delivering tangible economic and social benefits for the community.”

Karyawan dan Masyarakat Sekitar | Employee and Community

Karyawan Kami | Our Employees [POJK F.18 ,F.21, F.22] [GRI 2-7, 2-8, 401-2, 404-1, 404-2]

- Jumlah Karyawan: Saat ini terdapat 3 orang inti (owner dan 2 karyawan tidak tetap) yang mengelola operasional sehari-hari.
- Mitra Disabilitas dan Komunitas: Melibatkan 10–15 orang mitra dari komunitas sekitar, termasuk penyandang disabilitas, dalam produksi, pelatihan, dan kegiatan edukasi.
- Pemberdayaan dan Inklusivitas: Arnetta Craft memberikan kesempatan setara, pelatihan keterampilan, serta sistem upah yang adil kepada seluruh mitra.
- Lingkungan Kerja: Mendorong suasana kerja yang ramah, inklusif, dan berbasis pembelajaran sehingga semua anggota merasa dihargai.

- Number of Employees: Currently, there are three core members (the owner and two non-permanent staff) managing daily operations
- Community and Disability Partners: Arnetta Craft collaborates with 10–15 community members, including persons with disabilities, who are actively involved in production, training, and educational activities
- Empowerment and Inclusivity: The enterprise provides equal opportunities, skill development programs, and fair compensation for all partners, fostering both professional growth and social inclusion.
- Work Environment: Arnetta Craft promotes a friendly, inclusive, and learning-oriented workplace where every member feels valued and supported.

Arnetta Craft meyakini bahwa karyawan dan mitra adalah aset utama yang menjaga keberlangsungan usaha. Hingga tahun 2024, terdapat 15 sahabat disabilitas yang diberdayakan serta 2–3 karyawan tidak tetap yang terlibat secara aktif dalam proses produksi. Arnetta Craft berkomitmen pada pemberdayaan masyarakat disabilitas dan kelompok rentan melalui program pelatihan keterampilan yang tidak hanya meningkatkan kapasitas individu, tetapi juga membuka kesempatan kerja yang inklusif.

Arnetta Craft believes that its employees and partners are the core assets sustaining the business. By 2024, the enterprise has empowered 15 disability partners and engaged 2–3 non-permanent staff who actively contribute to the production process. Arnetta Craft is deeply committed to empowering persons with disabilities and vulnerable groups through skill development programs that not only enhance individual capabilities but also open access to inclusive employment opportunities.

Prinsip pemberdayaan dan inklusivitas menjadi dasar dalam setiap kegiatan, dengan memberikan kesempatan setara, pelatihan keterampilan, serta sistem upah yang adil. Lingkungan kerja dibangun dengan suasana ramah, inklusif, dan berbasis pembelajaran, sehingga setiap anggota merasa dihargai dan memiliki ruang untuk berkembang. Melalui pendekatan ini, Arnetta Craft tidak hanya menghadirkan produk ramah lingkungan, tetapi juga menciptakan nilai sosial yang memperkuat komunitas dan keberlanjutan usaha.

Empowerment and inclusivity principles form the foundation of all activities, ensuring equal opportunities, continuous skill training, and fair compensation for all team members. The work environment is designed to be friendly, inclusive, and learning-oriented, enabling every individual to feel valued and to grow both personally and professionally.

Sepanjang tahun 2024, perusahaan secara konsisten memberikan pelatihan dengan rata-rata 2 jam per bulan kepada karyawan dan sahabat disabilitas, mencakup keterampilan produksi, pemahaman keselamatan kerja, serta pengembangan kapasitas diri.

Throughout 2024, the company consistently conducted regular training sessions—averaging 2 hours per month—for employees and disability partners, focusing on production skills, occupational safety, and personal capacity development.

Arnetta Craft di Mata Masyarakat | Arnetta Craft in Community Side [POJK F.23, F.25]

Arnetta Craft berkomitmen menjadi bagian aktif dalam mendukung pembangunan berkelanjutan di masyarakat sekitar.

- Program Edukasi: Melalui Rumah Pilah Teratai Putih, Arnetta Craft mengadakan pelatihan pilah sampah, eco-enzym, daur ulang kertas, dan kerajinan eco-pounding untuk anak-anak TK, SD, SLB, serta kelompok ibu rumah tangga.
- Pemberdayaan Ekonomi: Produk hasil daur ulang (sabun, lilin, hampers eco-friendly) dijual untuk mendukung pendapatan komunitas dan mitra disabilitas
- Kolaborasi Sosial: Berpartisipasi dalam kegiatan kampung, bazar lingkungan, lomba kreatif daur ulang, serta program pelatihan bersama instansi/lembaga pendidikan dan pemerintah daerah
- Dampak Positif: Kehadiran Arnetta Craft menumbuhkan kesadaran lingkungan, membuka peluang ekonomi kreatif, serta memperkuat solidaritas sosial masyarakat sekitar.

Arnetta Craft is committed to being an active contributor to sustainable development within the local community.

- Educational Programs: Through the Rumah Pilah Teratai Putih initiative, Arnetta Craft conducts environmental education and training programs on waste sorting, eco-enzyme production, paper recycling, and eco-pounding crafts. These programs target kindergarten, elementary, and special needs (SLB) students, as well as women's community groups.
- Economic Empowerment: Recycled products such as soap, candles, and eco-friendly hampers are sold to support the income of community members and disability partners, helping to foster local entrepreneurship.
- Social Collaboration: Arnetta Craft actively participates in community events, environmental bazaars, creative recycling competitions, and collaborative training programs with educational institutions and local government bodies.
- Positive Impact: The presence of Arnetta Craft has helped raise environmental awareness, create creative economic opportunities, and strengthen social solidarity among local communities.

Pelatihan pilah sampah, eco-enzym, daur ulang kertas, eco-pounding bagi anak-anak & ibu rumah tangga
Waste sorting, eco-enzyme, paper recycling, and eco-pounding training for children and housewives

Pemberdayaan mitra disabilitas melalui keterlibatan aktif dalam produksi dan penjualan produk eco-friendly
Empowerment of partners with disabilities through active involvement in the production and sale of eco-friendly products

Produksi sabun, lilin, dan hampers ramah lingkungan dari hasil daur ulang
Production of environmentally friendly soaps, candles, and hampers made from recycled materials

Kolaborasi dengan komunitas, sekolah, lembaga pendidikan, dan pemerintah daerah dalam kegiatan lingkungan & sosial
Collaboration with communities, schools, educational institutions, and local governments in environmental and social activities

Arnetta Craft berkomitmen untuk menjadi bagian aktif dalam mendukung tujuan pembangunan berkelanjutan (TPB) di masyarakat sekitar melalui berbagai program yang mengedepankan edukasi, pemberdayaan, dan kolaborasi. Melalui Rumah Pilah Teratai Putih, Arnetta Craft secara rutin mengadakan pelatihan pilah sampah, pembuatan eco-enzym, daur ulang kertas, serta kerajinan eco-pounding bagi anak-anak TK, SD, SLB, dan kelompok ibu rumah tangga, sebagai upaya mendorong kesadaran terhadap gaya hidup ramah lingkungan serta keberlanjutan yang dapat dijalankan bersama. Kegiatan ini tidak hanya menanamkan kesadaran sejak dini, tetapi juga memberikan keterampilan praktis yang bermanfaat bagi kehidupan sehari-hari.

Dari sisi ekonomi, Arnetta Craft mendorong pemberdayaan komunitas dan mitra disabilitas melalui penjualan produk hasil daur ulang seperti sabun, lilin, dan hampers eco-friendly. Setiap produk yang dihasilkan menjadi sumber pendapatan tambahan sekaligus bukti nyata bahwa kreativitas ramah lingkungan dapat bernilai ekonomi.

Selain itu, Arnetta Craft aktif menjalin kolaborasi sosial dengan berpartisipasi dalam kegiatan kampung, bazar lingkungan, lomba kreatif daur ulang, serta program pelatihan bersama lembaga pendidikan maupun pemerintah daerah. Seluruh upaya ini memberi dampak positif berupa meningkatnya kesadaran lingkungan, terbukanya peluang ekonomi kreatif, serta tumbuhnya solidaritas sosial di tengah masyarakat.

Arnetta Craft is committed to being an active contributor to supporting the Sustainable Development Goals (SDGs) within the surrounding community through various programs that prioritize education, empowerment, and collaboration. Through *Rumah Pilah Teratai Putih*, Arnetta Craft regularly conducts training sessions on waste sorting, eco-enzyme making, paper recycling, and eco-pounding crafts for kindergarten, elementary, and special needs students, as well as groups of housewives. These initiatives aim to raise awareness of environmentally friendly lifestyles and promote collective sustainability practices. The activities not only instill awareness from an early age but also provide practical skills that are beneficial for daily life.

From an economic perspective, Arnetta Craft promotes community and disability partner empowerment through the sale of recycled products such as eco-friendly soaps, candles, and hampers. Each product serves as an additional source of income and a tangible example of how environmentally conscious creativity can hold economic value.

In addition, Arnetta Craft actively fosters social collaboration by participating in community events, environmental bazaars, creative recycling competitions, and training programs in partnership with educational institutions and local governments. All these efforts have resulted in positive impacts, including increased environmental awareness, the creation of creative economic opportunities, and the strengthening of social solidarity within the community.

Program Sedekah Ilmu

Knowledge Alms Program [POJK F.23]

Selain menghadirkan produk ramah lingkungan, Arnetta Craft juga memiliki komitmen sosial melalui program rutin "Sedekah Ilmu" yang diadakan dua kali setiap bulan. Program ini bertujuan untuk berbagi pengetahuan dan keterampilan kepada berbagai kalangan, mulai dari sahabat disabilitas, anak-anak yatim piatu, ibu-ibu di kawasan padat penduduk, rumah singgah kanker, hingga warga binaan di lapas wanita dan masyarakat sekitar.

In addition to producing environmentally friendly products, Arnetta Craft also demonstrates its social commitment through a regular program called "Sedekah Ilmu" (Knowledge Sharing), held twice a month. This program aims to share knowledge and skills with various groups, including persons with disabilities, orphans, women in densely populated areas, cancer shelter residents, female inmates, and local communities.

Dalam pelaksanaannya, Arnetta Craft juga bergandeng tangan dengan relawan dari komunitas Jakarta Mengabdi untuk memperluas jangkauan dan memperkuat dampak positif program ini. Tidak hanya pertemuan tatap muka, Arnetta Craft juga aktif menyelenggarakan webinar edukatif yang terbuka untuk masyarakat luas, sehingga nilai keberlanjutan, kreativitas, dan pemberdayaan dapat disebarkan lebih luas tanpa batas ruang.

In implementing this program, Arnetta Craft collaborates with volunteers from the Jakarta Mengabdi community to expand its reach and strengthen the program's positive impact. Beyond in-person sessions, Arnetta Craft also actively organizes educational webinars open to the public, allowing the values of sustainability, creativity, and empowerment to be shared more broadly without spatial limitations.

Melalui program "Sedekah Ilmu," Arnetta Craft berupaya menciptakan ruang belajar yang inklusif, menumbuhkan rasa percaya diri, dan menghadirkan manfaat nyata bagi komunitas, sejalan dengan semangat keberlanjutan yang dijalankan perusahaan.

Through the "Sedekah Ilmu" program, Arnetta Craft strives to create an inclusive learning environment, foster self-confidence, and deliver tangible benefits to the community — aligning with the company's spirit of sustainability.

Menerapkan Ekonomi Berkelanjutan | Implementing Sustaianability Economy

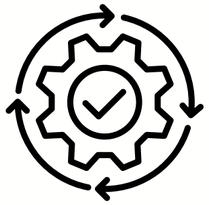

Analisis Produksi | Production Analysis [POJK F.26]

Sejak tahun 2024 Arnetta Craft menerapkan prinsip Green Productivity (GP) Tools dalam proses produksinya sebagai bentuk inovasi untuk menghadirkan produk ramah lingkungan sekaligus efisien secara ekonomi, dengan memadukan peningkatan produktivitas dengan kelestarian lingkungan. Analisis ini membantu usaha dalam menyeimbangkan antara biaya, efisiensi, dan dampak lingkungan.

Since 2024, Arnetta Craft has implemented the principles of Green Productivity (GP) Tools in its production process as an innovation to deliver environmentally friendly products that are also economically efficient. This approach integrates productivity improvement with environmental sustainability. The analysis helps the business balance cost, efficiency, and environmental impact.

Efisiensi Bahan Baku | Raw Material Efficiency
Penggunaan minyak jelantah sebagai bahan baku utama sabun dan lilin mengurangi biaya sekaligus menekan pencemaran lingkungan.
The use of used cooking oil as the main raw material for soap and candles helps reduce costs while minimizing environmental pollution.

Pengendalian Proses | Process Control
Produksi dilakukan dengan sistem batch kecil sehingga mudah dikendalikan, hemat energi, dan meminimalkan limbah.
Production is carried out in small batches, making it easier to manage, energy-efficient, and minimizing waste.

Penghematan Energi | Energy Conservation
Menggunakan gas alam PGN dan listrik secara terbatas serta efisiensi distribusi melalui kurir lokal untuk mengurangi jejak karbon.
Natural gas from PGN and electricity are used efficiently, and product distribution is optimized through local couriers to reduce the carbon footprint.

Monitoring & Evaluasi | Monitoring & Evaluation
Setiap periode produksi dilakukan evaluasi biaya dan kualitas produk agar konsisten dengan target keberlanjutan.
Each production period includes cost and product quality evaluations to ensure consistency with sustainability targets.

Standarisasi yang Diterapkan | Applied Standardization

[POJK F.27] [GRI 417-1]

Arnetta Craft memastikan bahwa 100% produk yang diluncurkan telah melalui evaluasi keamanan dan standar produk secara menyeluruh. Sehingga selama 2024 tidak terdapat produk yang ditarik kembali.

Arnetta Craft ensures that 100% of its products have undergone thorough safety and quality evaluations before being launched. As a result, there were no product recalls throughout 2024.

Guna menjaga keberlanjutan jangka panjang, Arnetta Craft selalu berkomitmen untuk menawarkan produk yang aman dan berkualitas kepada para pelanggannya dengan menerapkan standar sederhana namun konsisten, meliputi:

To maintain long-term sustainability, Arnetta Craft remains committed to offering safe and high-quality products to its customers by applying simple yet consistent standards, which include:

Standar Produk | Product Standards
Arnetta Craft memastikan kualitas sabun dan lilin yang dihasilkan aman, bersih, tahan lama, serta menggunakan fragrance oil yang sesuai dengan standar keamanan konsumen.
Arnetta Craft ensures that the soaps and candles produced are safe, clean, durable, and made using fragrance oils that comply with consumer safety standards.

Standar Sosial | Social Standards
Pelatihan rutin diberikan kepada karyawan dan mitra disabilitas, disertai pemberdayaan komunitas melalui workshop dan kegiatan edukasi.
Regular training is provided to employees and partners with disabilities, along with community empowerment through workshops and educational activities.

Standar lingkungan | Environmental Standards
Seluruh limbah padat maupun cair dipastikan aman sebelum dibuang, dengan dukungan penggunaan kemasan ramah lingkungan berbahan kertas daur ulang.
All solid and liquid waste is ensured to be safe before disposal, supported by the use of eco-friendly packaging made from recycled paper materials.

Sustaining Process | Sustaining Process
Seluruh standar dipantau secara konsisten agar proses produksi berjalan berkelanjutan serta memberikan manfaat nyata bagi lingkungan dan masyarakat.
All standards are consistently monitored to ensure that the production process remains sustainable and delivers tangible benefits to both the environment and society.

Dampak Ekonomi Tidak Langsung

Indirect Impact [POJK F.28] [GRI 203-2]

Selain memberikan manfaat langsung berupa omzet dan pendapatan, Arnetta Craft juga menciptakan dampak ekonomi tidak langsung, antara lain:

- Peningkatan Pendapatan Komunitas: Melalui program pelatihan dan kemitraan, masyarakat mendapatkan tambahan penghasilan dari produksi kerajinan dan produk daur ulang
- Efek Multiplier ke UMKM Lain: Pemasok bahan (*fragrance oil*, *bleaching earth*, kemasan) juga memperoleh manfaat dari aktivitas produksi.
- Daya Tarik Wisata Edukasi: Rumah Pilah Teratai Putih menjadi destinasi pembelajaran bagi sekolah dan komunitas, sehingga memberi peluang ekonomi tambahan untuk masyarakat sekitar.
- Citra Positif Lingkungan & Sosial: Produk ramah lingkungan memberikan nilai tambah di mata konsumen dan memperkuat keberlanjutan ekonomi usaha dalam jangka panjang.

In addition to providing direct benefits in the form of revenue and income, Arnetta Craft also generates indirect economic impacts, including:

- Community Income Enhancement: Through training programs and partnerships, community members gain additional income from the production of crafts and recycled products.
- Multiplier Effect on Other SMEs: Suppliers of raw materials such as fragrance oils, bleaching earth, and packaging also benefit from production activities.
- Educational Tourism Attraction: Rumah Pilah Teratai Putih serves as a learning destination for schools and communities, creating additional economic opportunities for the surrounding community.
- Positive Environmental & Social Image: Environmentally friendly products add value in the eyes of consumers and strengthen the long-term economic sustainability of the business.

Produk Arnetta Craft memberikan nilai tambah tidak hanya dari sisi kualitas dan keamanan bagi konsumen, tetapi juga berkontribusi terhadap praktik berkelanjutan serta mendukung pemberdayaan masyarakat secara inklusif. Selain memberikan manfaat langsung melalui omzet dan pendapatan usaha, Arnetta Craft juga menciptakan beragam dampak ekonomi tidak langsung bagi komunitas dan mitra. Melalui program pelatihan dan kemitraan, masyarakat memperoleh tambahan penghasilan dari produksi kerajinan serta produk daur ulang. Aktivitas produksi juga memberi efek multiplier kepada UMKM lain, seperti pemasok fragrance oil

Keberadaan Rumah Pilah Teratai Putih berkembang menjadi daya tarik wisata edukasi bagi sekolah dan komunitas, sehingga membuka peluang ekonomi tambahan bagi masyarakat sekitar. Produk-produk ramah lingkungan yang dihasilkan juga membawa citra positif di mata konsumen, memberikan nilai tambah, dan memperkuat keberlanjutan ekonomi usaha dalam jangka panjang.

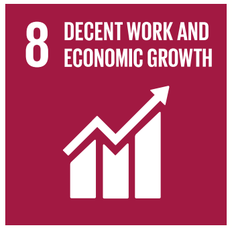

Arnetta Craft's products provide added value not only in terms of quality and safety for consumers but also contribute to sustainable practices and support inclusive community empowerment. Beyond direct benefits through business revenue, Arnetta Craft creates various indirect economic impacts for communities and partners. Through training programs and partnerships, community members earn additional income from craft and recycled product production. Production activities also create a multiplier effect for other SMEs, including suppliers of fragrance oils, bleaching earth, and packaging, who gain economic benefits.

Moreover, Rumah Pilah Teratai Putih has grown into an educational tourism attraction for schools and communities, opening additional economic opportunities for the surrounding community. The environmentally friendly products also enhance the company's positive image, provide added value, and reinforce the long-term economic sustainability of the business.

Topik Material | Material Topics [GRI 3-2, 3-3]

Komunitas Lokal - TPB 8: Pekerjaan Layak & Pertumbuhan Ekonomi

Arnetta Craft berkomitmen untuk mendorong pertumbuhan ekonomi inklusif melalui pemberdayaan komunitas lokal dan sahabat disabilitas. Melalui Rumah Pilah Teratai Putih, Arnetta Craft tidak hanya berperan sebagai pusat produksi, tetapi juga menjadi wadah kolaborasi sosial-ekonomi berbasis masyarakat. Program pemberdayaan dilakukan dengan melibatkan 10–15 mitra komunitas, termasuk penyandang disabilitas, dalam kegiatan produksi sabun, lilin aromaterapi, serta produk daur ulang bernilai ekonomi. Kegiatan ini membuka peluang kerja yang layak sekaligus meningkatkan pendapatan masyarakat sekitar melalui penjualan produk ramah lingkungan dan hampers eco-friendly.

Selain menciptakan manfaat ekonomi langsung, Arnetta Craft turut menghadirkan dampak ekonomi tidak langsung melalui efek multiplier bagi UMKM lain seperti pemasok bahan baku, kemasan, dan fragrance oil. Keberadaan Rumah Pilah Teratai Putih juga menumbuhkan ekosistem wisata edukasi yang memberikan peluang ekonomi tambahan bagi warga sekitar. Seluruh kegiatan ini mencerminkan dukungan Arnetta Craft terhadap SDG 8 – Pekerjaan Layak dan Pertumbuhan Ekonomi, dengan memastikan bahwa setiap aktivitas usaha turut memperkuat inklusivitas, produktivitas, dan kesejahteraan komunitas lokal secara berkelanjutan.

Local Community – SDG 8: Decent Work and Economic Growth

Arnetta Craft is committed to promoting inclusive economic growth through the empowerment of local communities and persons with disabilities. Through Rumah Pilah Teratai Putih, Arnetta Craft not only serves as a production center but also functions as a hub for community-based social and economic collaboration. The empowerment programs involve 10–15 community partners, including persons with disabilities, in producing soaps, aromatherapy candles, and recycled products with economic value. These initiatives create decent employment opportunities while increasing the income of surrounding communities through the sale of eco-friendly products and hampers.

Beyond generating direct economic benefits, Arnetta Craft also delivers indirect economic impacts through multiplier effects on other MSMEs, including suppliers of raw materials, packaging, and fragrance oils. The presence of Rumah Pilah Teratai Putih has also fostered an eco-education ecosystem that provides additional livelihood opportunities for local residents. These efforts reflect Arnetta Craft's contribution to SDG 8 – Decent Work and Economic Growth, by ensuring that every business activity promotes inclusivity, productivity, and community well-being in a sustainable manner.

Pelatihan dan Edukasi – TPB 4: Pendidikan Berkualitas

Sebagai bagian dari komitmen sosialnya, Arnetta Craft menjadikan pelatihan dan edukasi sebagai sarana utama untuk meningkatkan kapasitas individu dan menumbuhkan kesadaran lingkungan. Melalui program pelatihan kreatif, workshop daur ulang, serta edukasi pilah sampah di Rumah Pilah Teratai Putih, Arnetta Craft memberikan kesempatan belajar bagi berbagai kelompok, mulai dari anak-anak TK, SD, dan SLB hingga ibu rumah tangga serta komunitas sekitar. Materi pelatihan meliputi pembuatan eco-enzyme, daur ulang kertas, dan kerajinan eco-pounding yang mendorong keterampilan praktis sekaligus membangun perilaku ramah lingkungan sejak dini.

Bagi karyawan dan mitra disabilitas, pelatihan rutin diberikan rata-rata 2 jam per bulan yang mencakup peningkatan keterampilan produksi, keselamatan kerja, dan pengembangan diri. Pendekatan pembelajaran yang inklusif ini memperkuat semangat kesetaraan dan kemandirian, sehingga setiap individu memiliki kesempatan yang sama untuk berkembang. Melalui program edukatif ini, Arnetta Craft mendukung SDG 4 – Pendidikan Berkualitas dengan menyediakan akses pembelajaran yang inklusif dan berorientasi pada pemberdayaan masyarakat menuju kemandirian ekonomi yang berkelanjutan.

Training and Education – SDG 4: Quality Education

As part of its social commitment, Arnetta Craft places training and education at the core of its efforts to enhance individual capacity and environmental awareness. Through creative workshops and recycling education programs at Rumah Pilah Teratai Putih, Arnetta Craft provides learning opportunities for various groups — including kindergarten, elementary, and special-needs students, as well as housewives and community members. The training topics include eco-enzyme making, paper recycling, and eco-pounding crafts, which develop practical skills while fostering early environmental awareness.

For employees and disability partners, Arnetta Craft conducts regular training sessions averaging two hours per month, focusing on production skills, occupational safety, and personal development. This inclusive learning approach strengthens equality and independence, ensuring that every individual has equal opportunities to grow. Through these educational programs, Arnetta Craft supports SDG 4 – Quality Education by providing inclusive and empowering learning access that enables sustainable economic self-reliance and community development.

Tentang Laporan | About the Report [GRI 2-2, 2-3, 2-4, 2-5]

Laporan ini merupakan laporan keberlanjutan pertama yang diterbitkan oleh Arnetta Craft yang diterbitkan tanggal 29 Oktober 2025. Laporan keberlanjutan ini disusun untuk periode pelaporan 1 Januari hingga 31 Desember 2024.
